This PRIIPs KID is authorised in United Kingdom.

Date of production of KID: 2024-02-15

What is this product?

Type

Columbia Threadneedle Specialist Funds (UK) ICVC is a UK UCITS in accordance with sections 236A and 237 of the Financial Services and Markets Act 2000. It is established as an open-ended investment company with variable capital incorporated with limited liability in England and Wales.

Depositary: Citibank UK Limited
You can obtain further information about the Fund, the Company, its prospectus (in English only), latest annual reports and any subsequent half-yearly reports (in English) free of charge from the ACD. You can obtain other practical information, including current share prices, at www.columbiathreadneedle.com

Term

There is no fixed maturity date. An investor can hold their investment for any time period but 5 year(s) is recommended. The ACD can close the Fund with notice.

Objectives

The Fund aims to provide income with the prospect for investment growth over the long term (5 years, or more). It looks to provide an income yield higher than the MSCI ACWI Index ("the Index") over rolling 3-year periods, after the deduction of charges. The Fund is actively managed, and invests at least 75% in shares of companies worldwide. There is no restriction on size, but investment tends to focus on larger companies. The Index represents the share performance of large and medium-sized companies worldwide and the income yield provides a suitable target benchmark against which the level of income generated by the Fund will be evaluated over time. The Investment Manager selects companies that exhibit above average income generation potential and offer opportunities for share price or dividend growth. The Investment Manager typically invests in fewer than 90 companies across different sectors, including companies not within the Index. The Investment Manager also seeks to create a portfolio that compares favourably against the Index over rolling 12-month periods, when assessed using the Columbia Threadneedle ESG Materiality Rating model. This model (developed and owned by Columbia Threadneedle Investments) analyses company data to assess how effectively material environmental, social and governance (ESG) risks and opportunities are being managed. If sufficient data is available, the combined results are expressed as a numerical rating to indicate how much exposure a company has to material ESG risks and opportunities in a particular industry. Whilst the Fund may still invest in companies that have poor ESG Materiality ratings, at least 50% of the portfolio is invested in companies with strong ratings. The Investment Manager engages with companies with a view to influencing management teams to address material ESG risks and improve their ESG practices. Columbia Threadneedle Investments is a signatory to the Net Zero Asset Managers Initiative and has committed to an ambition to reach net zero emissions by 2050 or sooner for a range of assets, including the Fund. As such, the Investment Manager will proactively engage with companies to assist with progressing this and may disinvest from those not meeting the minimum standards. The Fund only invests in companies that follow good governance practices. It does not invest in companies which derive revenue from industries or activities above the thresholds shown: tobacco production (5%); nuclear weapons – indirect involvement (5%), conventional weapons – military, or civilian firearms (10%), and thermal coal – extraction or power generation (30%), providing a company is not engaged in new coal projects. The Fund excludes companies that have direct involvement in nuclear or controversial weapons, and companies determined to have breached international standards and principles. The Fund may invest in other securities, collective investment schemes (including funds managed by Columbia Threadneedle companies), money market instruments, deposits, and cash. Derivatives may currently only be held with the aim of reducing risk or managing the Fund more efficiently.

Any income the Fund generates will be paid to you, unless you have chosen to have it reinvested.

You can buy and sell shares in the Fund on any day that is a business day in London. You can find more detail on the investment objective and policy of the Fund in the prospectus. For more information on investment terms used in this document, please see the Glossary available at www.columbiathreadneedle.com.

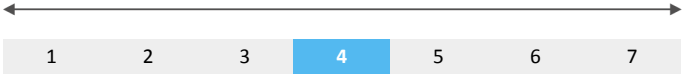

Intended retail investor

This fund is aimed at Retail and Professional customers and Eligible Counterparties who should have at least a basic level of knowledge and experience of investing in funds. It is designed for investors looking for income and potential capital growth through investment in companies, where responsible investment considerations are integrated into the investment decision making process, who can invest their money for at least 5 years. Your capital is not guaranteed which means that investors could lose up to 100% of the amount invested. The fund invests in company shares the prices of which tend to fluctuate more than other asset classes as investors directly participate in underlying companies and their profits and losses.

What are the risks and what could I get in return?

RISK INDICATOR

Lower risk — Higher risk

The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

This rates the potential losses from future performance at a medium level, and poor market conditions could impact our capacity to pay you.

Be aware of currency risk. You may receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the prospectus.

Other risks to be considered are: Currency, Derivatives, Volatility, ESG Investment Criteria

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.
The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between 05/2022 to 12/2023
Moderate scenario: This type of scenario occurred for an investment between 11/2016 to 11/2021
Favourable scenario: This type of scenario occurred for an investment between 07/2014 to 07/2019

Investment GBP 10,000 Scenarios		If you exit after 1 year	If you exit after 5 years (Recommended Holding Period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress scenario	**What you might get back after costs**	**2,710.00 GBP**	**2,740.00 GBP**
	Average return each year	-72.92%	-22.80%
Unfavourable scenario	**What you might get back after costs**	**8,570.00 GBP**	**10,260.00 GBP**
	Average return each year	-14.31%	0.51%
Moderate scenario	**What you might get back after costs**	**10,380.00 GBP**	**14,070.00 GBP**
	Average return each year	3.82%	7.07%
Favourable scenario	**What you might get back after costs**	**12,890.00 GBP**	**16,500.00 GBP**
	Average return each year	28.87%	10.53%

What happens if Threadneedle Investment Services Limited is unable to pay out?

The ACD is covered by the Financial Services Compensation Scheme. If it cannot meet its obligations, you may be entitled to compensation under the scheme up to a maximum limit of £85,000.

What are the costs?

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

Investment GBP 10,000	if you exit in after 1 year	if you exit in after 5 years (Recommended Holding Period)
Total costs	**420.00 GBP**	**1,323.00 GBP**
Annual Cost impact*	**4.20%**	**1.94%**

(*) This illustrates how costs reduce your return each year over the holding period. For example, it shows that if you exit at the recommended holding period your average return per year is projected to be 7.07% before costs and 5.12% after costs.
We may share part of the costs with the person selling you the product to cover the services they provide to you.

Composition of costs

One-off costs upon entry or exit		If you exit after 5 year(s)
Entry costs	This includes distribution costs of 3% of amount invested. This is the most you will be charged. The person selling you the product will inform you of the actual charge.	300.00 GBP
Exit costs	This is the charge that may be taken from your investment when you choose to sell. We do not charge an exit fee for this product, but the person selling you the product may choose to do so.	0.00 GBP
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.90% of the value of your investment per year. This is the ongoing charges incurred and includes the annual management charge and operating costs.	90.00 GBP
Transaction costs	0.28% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	28.15 GBP
Incidental costs taken under specific conditions		
Performance fees and carried interests	No performance fee charged	0.00 GBP

How long should I hold it and can I take money out early?

Recommended holding period: 5 year(s)

The minimum recommended holding period of 5 year(s) has been selected for illustrative purposes only and reflects the long-term nature of the Fund's investment objective. However there is no minimum (or maximum) holding period.

You can buy or sell shares in the Fund on any day which is a business day in London. Such days are published on www.columbiathreadneedle.com.

How can I complain?

If you have a complaint or are dissatisfied please let us know so we can try to put it right, please feel free to directly contact Threadneedle Investment Services Limited

Postal address: PO Box 10033, Chelmsford, Essex, CM99 2AL
