What is this product?

Type
UCITS

Term
The Company is an open-ended fund with no specified maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The PRIIPs Manufacturer, Waystone Management Company (IE) Limited, is not entitled to terminate the product unilaterally.

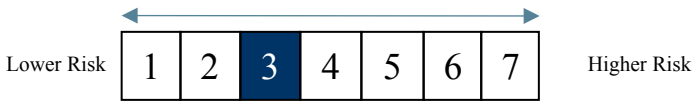

Objectives
The investment objective of the Product is to achieve long term capital growth. The Product is considered to be actively managed, which means that the Investment Manager is not constrained by any index or benchmark in the selection of investments. The Investment Manager has discretion in managing the investments of the Product. The Product seeks to achieve this objective by investment primarily in open ended collective investment schemes which gain exposure to equities (e. g. shares), Fixed Income Securities (with no restriction on the minimum credit rating), property, commodities and currencies. It is intended that the Product will maintain a bias towards growth and may invest up to 100% of net assets in equities. The Products exposure to Fixed Income Securities, property, commodities and currencies may be on an ancillary basis. Macro considerations will be used in determining the allocation of investments in order to achieve the Product's investment objective. Any income arising from this Share Class will be accumulated. The Product may use a number of simple derivative instruments for investment purposes and/or efficient portfolio management purposes. Further information on the Product's use of derivatives can be found under the Derivatives section within the Product's Supplement. Although the use of derivatives may give rise to an additional exposure any such additional exposure will not exceed the Product's Net Asset Value.

Intended Retail Investor
This Product is intended for investors who understand the degree of risk, who can tolerate a medium to low level of volatility and who are able to bear any losses (which may equal the whole amount invested) that may result from an investment in the Product. The Product is designed to form part of a portfolio of investments.

Important Information
- The Company is an investment company with variable capital incorporated in Ireland with registered number 553111 and established as an umbrella fund with segregated liability between sub-funds.
- The Company's Depositary is Citi Depositary Services Ireland Designated Activity Company.
- Further information about the Company, the Product and the different classes of shares (including a copy of the current Prospectus, the Supplement and most recent Report and Financial Statements) are available online at www.devere-am.com.
- Investors may switch shares in the Product for shares in other sub-funds of Pacific Capital UCITS Funds plc provided that they satisfy the criteria applicable to investments in the other sub-fund(s). Further information on switching is contained in the Prospectus and the Supplement.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.
The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
We have classified this product as 3 out of 7, which is a medium-low risk class.
This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.
Due to effects of unusual market conditions, other risks could be triggered, refer to "Risk Considerations" in the Prospectus and Supplement.
This product does not include any protection from future market performance so you could lose some or all of your investment.
If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment between August 2021 and December 2023.

The moderate scenario occurred for an investment in the benchmark between January 2017 and January 2022.

The favourable scenario occurred for an investment in the benchmark between January 2016 and January 2021.

Recommended holding period: 5 years.

Example Investment: EUR 10,000.

What happens if Waystone Management Company (IE) Limited is unable to pay out?

The Management Company has no obligation to pay out since the Company design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should the Company default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.
We have assumed:
- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	311 EUR	1,910 EUR
Annual cost impact (*)	3.1%	2.9% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.8% before costs and 5.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs
