Objectives and Investment Policy

Investment Objective:

The Fund aims to provide long term capital growth and income by investing in a portfolio of High Yield bonds (denominated in Euro), while promoting environmental, social and governance (ESG) characteristics. The Fund aims to have a higher ESG rating than its reference benchmark; calculated as a weighted average of the ESG ratings of the issuers of the Fund's investments versus the weighted average of the ESG ratings of its reference benchmark.

The Fund promotes ESG characteristics within the meaning of Article 8 of SFDR. More information on HSBC Global Asset Management's responsible investing policies is available at www.assetmanagement.hsbc.com/about-us/responsible-investing/policies.

Investment Policy:

In normal market conditions, the Fund will invest at least 90% of its assets in non-investment grade bonds and other higher yielding securities including unrated bonds, denominated in Euro and other developed market currencies. These bonds are issued by companies, or issued by government, government agencies or supranational bodies, that are based in developed markets and emerging markets.

The Fund includes the identification and analysis of an issuer's ESG Credentials as an integral part of the investment decision making process to reduce risk and enhance returns. The Fund will not invest in bonds issued by companies with involvement in specific excluded activities, such as, companies involved in the production of controversial weapons and tobacco; companies with more than 10% revenue generated from thermal coal extraction; and companies with more than 10% revenue generated from coal-fired power generation. The Fund conducts enhanced due diligence on bond issuers that are considered to be non-compliant with the UN Global Compact Principles. Please refer to the Prospectus for more details on ESG Credentials and Excluded Activities.

The Fund invests in bonds which are mostly denominated in Euro and in other developed market currencies. Normally investment in non-Euro currencies will be limited to 10% of the Fund's assets.

The Fund may also invest in derivatives and use them for hedging, efficient portfolio management purposes, cash flow management and tactical asset allocation. Derivatives will not be used extensively for investment purposes. Derivatives may also be embedded in other instruments used by the Fund.

- ◆ The Investment Advisor will use its discretion to invest in securities not included in the reference benchmark based on active investment management strategies and specific investment opportunities. It is foreseen that a significant percentage of the Fund's investments will be components of the reference benchmark. However, their weightings may deviate materially from those of the reference benchmark.
- ◆ The deviation of the Fund's performance and underlying investments' weightings relative to the benchmark are monitored, but not constrained, to a defined range.
