What is this product?

Type

This is an open ended UCITS fund.

Term

There is no maturity date of the fund.

Investment objective

The fund aims to provide capital growth in excess of the MSCI Emerging Markets Asia (Net TR) Index after fees have been deducted over a three to five year period by investing in equities of companies in the emerging markets in Asia.

The fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies in the emerging markets in Asia.

The fund may invest directly in China B-Shares and China H-Shares and may invest less than 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through (i) Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect, (ii) the Qualified Foreign Investor ("QFI") scheme, (iii) shares listed on the Science Technology and Innovation (STAR) Board and the ChiNext, and (iv) regulated markets.

The fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, investment funds, warrants and money market investments, and hold cash (subject to the restrictions provided in appendix I).

Benchmark: The fund's performance should be assessed against its target benchmark being to exceed the MSCI Emerging Markets Asia (Net TR) Index and compared against the Morningstar Asia ex Japan Equities Category. The fund's investment universe is expected to overlap materially, directly or indirectly, with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the investment manager invests the fund's assets. The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the target benchmark.

The fund may use derivatives with the aim of reducing risk or managing the fund more efficiently.

The fund is valued with reference to the net asset value of the underlying assets.

Dealing Frequency: You may redeem your investment upon demand. This fund deals daily.

Distribution Policy: This share class accumulates income received from the fund's investments, meaning it is kept in the fund and its value is reflected in the price of the share class.

Depositary: J.P. Morgan SE

Intended retail investor

The fund is intended for retail investors (i) with basic investment knowledge; (ii) who understand the basics of buying and selling shares in stock market listed companies and the way these shares are valued; (iii) who can accept large short-term losses; and (iv) wanting growth over [the longer term] but with easy access to their cash. This investment should form part of a varied investment portfolio. This product is suitable for general sale to retail and professional investors through all distribution channels with or without professional advice.

What are the risks and what could I get in return?

Risks

Lower risk — Higher risk

The risk indicator assumes you keep the product for 3 years.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the market or because we are not able to pay you.

We have classified this product as 4 out of 7, which is a medium risk class.

The fund is in this category because it can take higher risks in search of higher rewards and its price may rise and fall accordingly.

Be aware of currency risk. If you choose a foreign currency share class you will be exposed to currency risk and your final return will depend on the exchange rate between the foreign currency and your local currency. The risk is not considered in the indicator shown above.

Liquidity risk: In difficult market conditions, the fund may not be able to sell a security for full value or at all. This could affect performance and could cause the fund to defer or suspend redemptions of its shares, meaning investors may not be able to have immediate access to their holdings.

You can find more information about the other risks in the prospectus at: **https://api.schroders.com/document-store/SISF-Prospectus-LUEN.pdf**

The Favourable scenario occurred for an investment between 10 2018 to 10 2021

What happens if Schroder Investment Management (Europe) S.A. is unable to pay out?

For your protection the company's assets are held with a separate company, a depositary, so the fund's ability to pay out would not be affected by the insolvency of Schroder Investment Management (Europe) S.A.. If the fund is terminated or wound up, the assets will be liquidated and you will receive an appropriate share of any proceeds but you may lose part or all of your investment. You are not covered by the Luxembourg compensation scheme.

What are the costs?

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10 000,00 is invested

	If you exit after 1 year	**If you exit after 3 years**
Total costs	**EUR 309**	**EUR 1037**
Annual cost impact (*)	**3.1%**	**2.7% each year**

*This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 14,2 % before costs and 11,5 % after costs.

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.
