SYNTHETIC RISK AND REWARD PROFILE

INDUSTRY STANDARD

To help you select the Plan Investments that best fit with your approach to risk, Utmost Worldwide Limited use the Synthetic Risk and Reward Indicator (SRRI)[^]. This does not constitute investment advice and should be used as a guidance tool only. For more information on SRRI please refer to our Plan Investments Brochure.

RISK SCALE

IMPORTANT NOTES

[^]The 'Synthetic Risk and Reward Indicator (SRRI)' was defined in 2009 by the Committee of European Securities Regulators (CESR) with the aim of providing investors with a method of assessing an underlying fund's risk. This SRRI calculation has been provided by Morningstar based on guidelines provided by the European Securities and Markets Authority (ESMA) and Morningstar's interpretation, methodology and implementation of said guidelines.

Please note that the categorisation of a Plan Investment is not constant and may change overtime.

Morningstar is not responsible for any trading decisions, damages or other losses related to the Information or its use. Please verify all of the Information before using it and don't make any investment decision except upon the advice of a professional financial adviser.

Morningstar is a leading provider of independent investment research in North America, Europe, Australia, and Asia and Morningstar Inc. is an independent entity to Utmost Worldwide Limited.

We link the benefits of your Plan to the return from your chosen Plan Investments which is subject at all times to investment risks and market fluctuations.

Utmost Worldwide calculates the return and value of your Plan based on the performance and value of your Plan Investments.

It is your responsibility to read and understand the offering documents relating to the Plan Investment(s) that you or any third party authorised by you are considering for selection. Each Plan Investment is subject to investment risks, including market risk, interest rate risk and exchange rate fluctuations. The Plan Investment options available to you will have different features and risk profiles and some may be of high risk. The value of Plan Investments and their performance may go down as well as up.

You should note that investment involves risk. Past performance is not indicative of future performance, and you may not get back the full amount that you invested, particularly in the early years of your Plan.

Planholders and/or their investment advisers are responsible for their investment decisions and any choice of Plan Investments is entirely at their own risk. Please note that the value of Plan Investments (as well as the income accruing to an investment) may go down as well as up.
