What is this product?

- ~ **Type:** The Fund is a sub-fund of the Company, an open ended investment company with variable capital and an umbrella fund with segregated liability between sub-funds, established under the laws of Ireland and authorised by the Central Bank of Ireland under the UCITS Regulation.
- ~ **Term:** The Fund does not have a fixed term of existence or maturity period but in certain circumstances, as described in the Prospectus, the Fund may be unilaterally terminated following written notice to investors subject to compliance with the Prospectus and applicable regulation. Subject to the liquidation, dissolution and termination rights of the Board of the Company as set forth in the Prospectus, the Fund cannot be automatically terminated.
- ~ **Objective:** The investment objective of the Fund is to seek to deliver long-term capital growth of SONIA plus 2-4%, considering both capital and income returns.
- ~ The Fund may invest in or seek exposure to a range of asset classes, determined by the Investment Manager, to seek to deliver attractive risk adjusted returns. The Investment Manager will construct the portfolio of assets which it considers encompass the most advantageous asset classes, geographic regions, sectors and market capitalisations taking into consideration the macro environment (such as interest rates, performance of GDP, unemployment, monetary and fiscal trends) at the time of selection.
- ~ The Fund may invest in collective investment schemes, debt securities, equity securities, securities with equity characteristics, cash and cash equivalents as well as securities providing indirect exposure to other asset classes such as FX and commodities.
- ~ The Fund may also invest indirectly in these asset classes through Financial Derivative Instruments ("FDI") including but not limited to forward currency contracts, options, credit default swaps, swaps and futures.
- ~ Income and capital gains arising in respect of the Class A Shares will be re-invested and reflected in the relevant Net Asset Value per Share. Directors may declare dividends with respect to Class I shares. Dividends will be paid out of net income (including dividend and interest income) and the excess of realised and unrealised capital gains net of realised and unrealised losses in respect of investments of the Fund.
- ~ The Fund is actively managed. The Investment Manager uses its expertise to select investments for the Fund and has discretion to invest without constraint to the reference benchmark.
- ~ The Investment Manager employs a top-down, asset allocation approach to investing the assets of the Fund. The starting point is the overall macroeconomic environment. Macro views will be formed through reading, analysing and assessing economic data from around the world from many different publishing sources. The selection of

appropriate asset classes will be made using both the Investment Managers' long-term experience and through employing a rigorous approach to quantitative and qualitative research.

- ~ Through the top down, asset allocation approach, the Fund aims to achieve lower levels of volatility than that experienced in broader equity markets, as measured by the MSCI World Index, over a period of at least 36 months. MSCI World Index captures large and mid-cap representation across 23 developed market countries. Volatility refers to the amount of uncertainty or risk about the size of changes in a security's value. A lower volatility means that a security's value does not fluctuate dramatically but changes in value at a lower rate than that experienced in broader equity markets.
- ~ You may buy or sell shares on any Business Day, being a day (other than a Saturday or Sunday) on which banks in Dublin, London and New York are open for normal business.

The Fund's assets are legally separated from the Investment Manager's. The Fund's assets are held by the Depositary, Northern Trust Fiduciary Services (Ireland) Limited, Dublin Branch. You may face a financial loss in the event of a default, insolvency or compulsory wind-up of the Depositary.
