UNDERLYING FUND STRATEGY

At least 67% of the fund's total assets (excluding cash and cash equivalents) will be invested in equity linked securities of companies that are incorporated under the laws of, and have their registered office in, a European country, or that derive the predominant part of their economic activity from Europe, even if listed elsewhere. Equity exposure may be achieved through investment in shares, depository receipts, warrants and other participation rights. Subject to foregoing, equity exposure may also be achieved, to a limited extent through investment in convertible securities, index and participation notes and equity linked notes. Fixed and floating rate debt securities, cash and cash equivalents may be held on an ancillary basis. The fund may also invest in UCITS and other UCIs.

The fund may invest in assets denominated in any currency and currency exposure in this Fund may be hedged or may be managed by reference to its benchmark. The fund may invest in financial derivative instruments for hedging purposes and for efficient portfolio management. Techniques and instruments relating to transferable securities and money market instruments (including, but not limited to, securities lending or repurchase agreements) may be used for the purpose of efficient portfolio management.
